JOB DESCRIPTION: **Auto Electrician**

ROLE OVERVIEW:

Our Auto Electricians are responsible for the day-to-day completion of jobs across all aspects and sectors of our auto-electrical workshop and field work.

ABOUT US:

We run a family owned auto electrical small business that provides exceptional auto electrical and air conditioning services for all manner of light and heavy vehicles, plant and mining equipment through personalised workshop & mobile service and experienced electricians. With a focus on profitably building the next generation of auto electricians to deliver a high-quality service to our customers in the Central Highlands and beyond. We act with integrity and are good people doing good work. We are passionate about providing a service that exceeds expectations.

QUALIFICATIONS & SKILLS:

- Auto Electrical Trade qualification
- Air Conditioning Licence
- Attention to detail, dedicated & able to work unsupervised in a team environment.
- Complex problem-solving skills.
- Have good verbal and written communication skills with a strong attention to detail
- High level of diagnostic skills within automotive systems
- Computer literacy with strong knowledge and skills
- Demonstrate a positive, proactive and motivated attitude to work
- Superior commitment to safe work practices
- Proven focus on continuous improvement in the workplace
- Innovative and forward thinking.
- Able to work autonomously and take personal responsibility for your work.

PERSONAL ATTRIBUTES

You will be able to demonstrate:

- Strong interpersonal skills
- Ownership and responsibility for all facets of the role
- Advanced problem-solving abilities
- Being driven and motivated to excel
- Familiarity in a fast-paced performance driven work environment where swift response times are a key to success
- Ability to contribute to a team environment, be a team player and add value to that team when required.

Demonstration of our key values:

- We do not compromise on safety
- We act with honesty and integrity
- We show respect
- We strive for the highest levels of quality and performance
- We are accountable
- We care about our team

KEY RESPONSIBILITIES:

- Air conditioning installs, repairs and services on all types of machines.
- Diagnostic testing and all types of auto electrical repairs
- Auxiliary equipment installations including UHF, VHF, isolators and mine compliance
- Repair and replacement of automotive electrical components.
- Gathering information from customers about issues with their electrical system.
- Diagnosing electrical issues and proposing a course of action.
- Repairing and replacing faulty wiring or electrical systems.
- Servicing of electrical automotive parts.
- Servicing and repairing electrical systems on agricultural vehicles.
- Maintaining a clean working environment.
- Completing job reports and processing paperwork.

General

- Ensure that work is carried out, always, in a manner which complies with the requirements of the Health & Safety in Employment Act, its amendments and regulations and the Health & Safety Policies and Procedures of the business.
